

Essentials of Management

Q) Define leadership.

- A:
- ① the art or process of influencing people so that they will strive willingly and enthusiastically toward the achievement of group goals.
 - ② Ideally, people should be encouraged to develop not only willingness to work but also "willingness to work with zeal and confidence".

Q) What is leadership?

- A:
- ① leading people
 - ② Influencing people
 - ③ Commanding people
 - ④ guiding people

Q) Differentiate Managers and leaders?

Managers	Leaders
focus on things	focus on people
do things right	do the right things
Plan	Inspire
Organize	Influence
Direct	Motivate
Control	Build
Follows the rules	Shape entities

Q) What are the Ingredients of leadership?

- A:
- ① The ability to use power effectively and in a responsible manner.
 - ② The ability to understand that human beings have different motivation forces at

1) Principle of Functional Definition

2) Principle of Parity of Authority and Responsibility

3) Principle of Organizational Efficiency

4) Principle of Specialization

DESCRIPTIVE

Answer all the questions.

- 11) Hassan is one of the leading detergent manufacturing companies with a wide product portfolio. As a newly recruited management trainee, develop the strategic options that are available to Hassan in accordance with the BCG Matrix for the below products.

Product#1: A versatile cleaning product that combines detergent with surface cleaners. Despite its innovative concept, it has [redacted]. ⇒ Dog

Product#2: A premium laundry detergent that has captured [redacted] ^(high) due to rising disposable incomes and growing urbanization. ⇒ Star (4)

Product#3: [redacted] single-use detergent pods targeting younger consumers. The [redacted] is growing fast, but the brand has [redacted]. ⇒ Question Mark

Product#4: A reliable liquid detergent with a [redacted], but it continues to [redacted]. ⇒ Cash cow

- 12) **By quoting the lines from the case-study, Identify and Explain the three HENRI FAYOL'S Principles incorporated:** Infosys Technologies, a leading Indian multinational corporation in the IT services sector has effectively implemented specific roles to employees based on their expertise, which ensures efficiency and specialization in its project management and software development processes. } Division of labor This clear division enables employees to focus on their areas of strength, thereby enhancing productivity and project outcomes. } Equity / Order The company also places strong emphasis on maintaining a clear and unified strategic plan across all its global operations. This consistency in direction allows Infosys to align its various departments and international branches towards common corporate goals, thereby achieving cohesive growth and stability. } Unity of direction The company ensures that its compensation structure is competitive, reflecting the employees' skills, experience, and contributions. } Fair Remuneration This approach fosters a sense of motivation in employees and also contributes to higher retention rates and job satisfaction. Through these practices, it leads to sustained success and a strong reputation in the global IT industry. (3)

- 13) **By quoting the lines from the case-study, Identify and Explain the three Managerial Roles as defined by Henry Mintzberg:** Sneha, CEO of Quantum Solutions, had led her tech startup from a small team to a mid-sized enterprise with over 500 employees in five years. She relied on daily departmental briefings to stay informed, which helped drive the company's rapid growth. She was frequently invited as the Guest of Honor to various events in Silicon Valley, solidifying Quantum's reputation in AI innovation. Sneha took tough financial decisions, working with her CFO to balance investments in an autonomous driving project while ensuring the stability of existing product lines. **Mention the Main Role and Sub Role for each scenario.** (3)

- 14) What is the significance of social responsibility to a corporate? Do you think business organisations should be socially responsible? Explain with an example. (3)

- 15) Demonstrate four differences between red ocean and blue ocean strategy. Highlight creation of a blue ocean with an relevant example. (3)
- 16) A manager oversees a team of 5 employees and spends a significant amount of time on direct supervision, giving feedback, and handling individual concerns. Another manager, in the same organization, supervises 15 employees but delegates most tasks and decisions. **Explain three factors that could influence the span of control which is being mentioned in this passage.** (3)
- 17) Describe two ways in which managers fulfil their responsibility to create an organizational environment that fosters ethical decision-making? (2)
- 18) Elaborate on the concept of quantitative objectives from an organizational perceptives? Provide an example of quantitative objective for a company to improve its performance. (2)
- 19) Mega Bazaar supermarket operates with the following departments: Production, Marketing, Finance and Personnel along with the subsections namely, Furniture Bazaar, Home Bazaar and Footwear Bazaar. **Draw a departmentation structure** for Mega Bazaar that would enable the management to pinpoint product-profit responsibility. Q11. Consider the following facts for the company MRF Tyres, prepare a SWOT analysis (create a labelled matrix & enter only statement numbers). Also using TOWS matrix for strategy formulation, create two strategies for MRF Tyres to tackle their weakness.

- | | |
|--|---|
| <ol style="list-style-type: none"> 1. Company offers a wide variety of tyres for different vehicles, including passenger cars, motorcycles, commercial vehicles, and agricultural equipment. 2. Compared to some competitors, MRF has been slower to adopt environmentally friendly practices and develop sustainable tyre solutions. 3. Fluctuations in the prices of natural rubber and other raw materials can impact production costs and profit margins for tyre manufacturers like MRF. 4. Global economic downturns or local economic slowdowns can adversely affect vehicle sales and, consequently, tyre demand, posing a threat to MRF's growth prospects. 5. Increasing consumer awareness and regulatory pressures for eco-friendly products present opportunities for MRF to innovate and develop green tyre solutions. 6. MRF has an extensive distribution network across India and exports to over 65 countries. | <ol style="list-style-type: none"> 7. MRF is one of the most recognized and trusted brands in the Indian tyre market, known for its quality and durability. 8. MRF's premium pricing strategy may limit its market share in price-sensitive segments, especially in rural areas where cheaper alternatives are available. 9. Rise of smart and connected vehicles offers MRF the opportunity to develop advanced tyre technologies, such as sensors for real-time monitoring. 10. Significant growth potential in emerging markets where vehicle ownership is increasing, providing opportunities for MRF to expand its footprint. 11. Significant portion of MRF's revenue comes from the Indian market, making it vulnerable to domestic economic fluctuations and market saturation. 12. Tyre industry is highly competitive, with numerous domestic and international players vying for market share, which can pressure pricing and margins. |

Q12. By quoting the lines from the case-study, Identify and Explain the three HENRI FAYOL'S Principles incorporated:

Infosys Technologies, a prominent player in the IT services sector, exemplifies effective management. The company maintains a strong adherence to its policies and procedures. This commitment to discipline not only ensures that employees understand their responsibilities but also establishes a foundation of mutual respect between management and staff, enhancing overall productivity. Moreover, Infosys encourages employees at all levels to take initiative in their work, empowering them to propose innovative solutions and actively participate in decision-making processes. This culture cultivates creativity and accountability, enabling teams to address challenges proactively and contribute to the company's success. Additionally, Infosys has a well-defined organizational hierarchy, where the chain of superiors ranging from the ultimate authority to the lowest is clearly defined. This facilitates clear communication and effective decision-making. By ensuring that information flows smoothly from top management to employees, this allows for efficient coordination and specialization in project management and software development. **(3 marks)**

Q19. Draw a [redacted] that corresponds to "[redacted]" (2 marks)

PART B. DESCRIPTIVE ANSWERS

(GIVE SUITABLE CORPORATE EXAMPLES AND DRAW NEAT DIAGRAMS WHEREVER NECESSARY TO SUPPORT YOUR ANSWERS)

11. Create a SWOT analysis for TATA Motors based on the following facts. Also create 2 TOWS strategies. (Use a labelled matrix with only statement numbers)

[04 MARKS]

- 1) Geopolitical uncertainties pose risks to Tata Motors' global operations and supply chains.
- 2) Global semiconductor shortages continue to affect vehicle availability and customer satisfaction.
- 3) India's electric vehicle market is projected to grow at 35% annually, offering expansion potential.
- 4) It faces stiff competition in the SUV market from players like Hyundai and MG.
- 5) It has strong R&D capabilities, with some of the best innovation centers in India.
- 6) Rising competition in the EV and SUV segments could impact market share.
- 7) Soaring fuel prices are accelerating consumer shift toward electric mobility.
- 8) Supply chain disruptions, especially due to chip shortages, have delayed production.
- 9) Tata Motors is a trusted brand for durable and reliable commercial vehicles.
- 10) Tata Motors lags global competitors in offering high-end luxury features.
- 11) Tata's investment in EV infrastructure, especially through collaboration with Tata Power, supports long-term growth.
- 12) The company benefits from wide service network coverage across Tier-2 and Tier-3 cities.

12. Quote lines from the case to identify three [redacted] roles applied by Zomato's CEO. Include the main and sub-role with a brief explanation of them.

[03 MARKS]

Zomato, founded in 2008, has evolved from a restaurant listing site to a major food delivery platform. The CEO actively scanned market trends and customer behavior to gather insights on the rising demand for sustainability. The CEO ensured that the initiatives, like climate-friendly packaging, and partnerships with sustainable organizations were communicated effectively within the organization, keeping employees informed and aligned with the company's sustainability goals. When facing internal resistance due to costs, the CEO acted quickly to resolve concerns, guiding the team toward understanding the long-term benefits of sustainability.

13. Quote lines from case to Identify three Henri Fayol principles reflected in [redacted]. Give a brief explanation of each of them.

[03 MARKS]

In 2017, Mark Schneider took over as the CEO of Nestlé, one of the world's largest food and beverage companies. Schneider implemented a clear organizational structure, ensuring that each employee had a well-defined role with clarity in the reporting line, streamlining the decision-making processes. Schneider emphasized accountability, ensuring that employees were responsible for the results of their actions, by aligning employees with their specific roles.

14. Bring out _____ style.

[03 MARKS]

15. The plans made by the top-level manager will differ from the ones that lower managers make. Give one example for top-level and lower level for the SIX types of plans used by a FMCG firm.

[03 MARKS]

16. Identify the _____ used and draw a neat structure of the same. Bring out the two pros for this structure.

[03 MARKS]

The new startup IT firm has recruited employees based on their specialized expertise in software development, network administration, quality assurance (QA), cybersecurity, and database management. In its early stages, the firm has secured three clients, each with distinct needs. The first client, a local shop, requires a payment app, while the second client, a fashion house, needs a new e-commerce platform. Both projects require the firm's full range of functional expertise. The third client, a financial firm, requires cloud migration support, which only necessitates the involvement of the network administration and database management teams.

17. Provide a brief explanation of how external environmental factors such as ethical considerations and social influences impact organizational functioning.

[02 MARKS]

18. With a neat block diagram, illustrate the _____

[02 MARKS]

19. _____ used in this case by Sneha. Justify your pick with valid reasoning from case scenarios. Suggest how Sneha can solve this problem.

[02 MARKS]

The manager, Sneha, had to constantly guide her national marketing team, who were inexperienced and unsure of their responsibilities and constant changes in the system made things worse. Since the team lacked training and couldn't make decisions on their own, Sneha had to spend most of her time solving small issues. Communication was poor, and tasks were often repeated due to confusion.

11. Consider these facts on brand Nestlé :

1. Nestlé is one of the world's most recognized and trusted brands in the food and beverage industry.
2. Growing middle-class populations in developing countries present a major opportunity for increased sales.
3. The company has faced criticism over issues like child labor, water usage, and misleading marketing.
4. The company offers a wide range of products, including dairy, beverages, confectionery, and infant nutrition.
5. Stricter food safety laws and advertising regulations can impact operations.
6. Nestlé relies heavily on agricultural raw materials, making it vulnerable to price fluctuations.
7. Nestlé operates in over 180 countries, giving it a vast international footprint.
8. Rising consumer preference for healthy, organic, and plant-based products can drive product innovation.
9. Fluctuations in ingredient prices can affect profit margins.
10. Nestlé has faced recalls due to quality control issues affecting consumer trust.
11. Nestlé has an extensive and efficient supply chain, ensuring product availability worldwide.
12. Increasing online shopping trends allow Nestlé to strengthen its direct-to-consumer sales.
13. A shift towards fresh, organic, and local products may reduce demand for processed foods.

Create a SWOT analysis for the brand Nestlé based on the above facts. Also create two

12. Nexa Manufacturing Pvt Ltd, a mid-sized automobile parts manufacturer in India, was struggling with inefficiencies, declining employee morale, and poor customer satisfaction. The new CEO, Mr. Arjun Mehta, has decided to implement some changes to revamp the company. To improve efficiency, Arjun restructured the production floor, assigning specialized teams for assembly, quality control, and logistics. This reduced errors and increased productivity by 25% within six months. A single strategic plan was developed by Arjun for expansion into electric vehicle components. All departments aligned their efforts with this goal, ensuring consistency in operations and resource allocation. While key strategic decisions remained with Arjun and top management, operational autonomy was given to middle managers and team leaders, balancing efficiency with flexibility.

Question Paper

Exam Date & Time: 19-Nov-2025 (02:00 PM - 05:00 PM)

MANIPAL ACADEMY OF HIGHER EDUCATION

FIFTH SEMESTER B.TECH. DEGREE EXAMINATIONS - NOVEMBER 2025
SUBJECT: HUM 3022/HUM_3022 ESSENTIALS OF MANAGEMENT
(SPL: COMPUTER SCIENCE & ENGINEERING / INFORMATION TECHNOLOGY)

Marks: 50

Duration: 180 mins.

Answer all the questions.

- 1A) What are the **system approach**? Explain any four of its importance in the system approach of management. (4)
- 1B) What is **organizational structure**? Explain the role of **organizational structure** in detail. (3)
- 1C) The Samsung group is a large Korean conglomerate that focuses on electronics and financial services. In the past, many Korean companies encountered difficulties because they diversified into unrelated fields. In its new approach to management, Samsung tries to avoid the pitfalls of other companies. At the turn of the century, Samsung initiated a policy designed to make the company a leader in its field, competing against firms such as Sony of Japan. The company is driven by its values and its philosophy. Samsung realizes the importance of its people and the use of latest technologies for achieving success in the marketplace. At the same time, it is aware of the responsibility to contribute to society not only in Korea, but also worldwide. Chairman Lee Kun-Hee laid the groundwork for a new approach to management that considers defects a crime. Quality, superior products and excellent customer service are considered key factors for success in the very competitive environment that has been dominated by Japanese firms. With its "digital management" approach, Samsung attempts to exploit the opportunities created by the information age technologies. Samsung's values, philosophy and policies as well as its goal of becoming a global leader in its field have attracted many Korean students. Samsung will use the talents of these young people, to successfully compete in the global environment. Analyse this case in terms of **organizational structure**. (3)
- 2A) What are the various **organizational structures** used in an organization? Briefly describe any four of them. (4)
- 2B) Explain the **nature and purpose of organizing function in management**. Also discuss the **importance of organizing** with a suitable representation. (3)
- 2C) Propose a **organizational structure** for an MNC with a field network of sales all over the country. Discuss its merits and limitations. (3)
- 3A) As the founder of a small manufacturing company producing steel bolts, you are considering adopting a Line Organizational structure. Apply the features of a line organization to explain how authority, communication, and decision-making would function in your company to ensure operational efficiency and draw the organizational chart. (3)

Course Outcome: "CO3" / Cognitive Level: "Application"

- 3B) You are the HR manager at an esteemed Nestlé (Food and beverages) with its production factory in Bengaluru. 14 Principles of Management : Henry Fayol's

- ① Division of Labour (Specialization of jobs, speed-accuracy in performance, subdivision efficiency)
- ② Authority & Responsibility (go hand-in-hand, co-existing, right of superiors, obligation)
 - controlling
 - compliant
- ③ Unity of Command (one boss)
- ④ Unity of Direction (one head, one plan) } different principle
do not confuse
- ⑤ Equity (fairness, kind, justice) [Quality relying whilst Equality is quantitative reliance]
- ⑥ Order (sys. arrangement) [ppl → social order; things → material order]
- ⑦ Discipline (sincerity, obedience, respect of authority & observance of rules & regulations of the enterp.)
- ⑧ Initiative (eagerness to initiate actions)
- ⑨ Fair remuneration (fair wages, free medical, residential & educational facilities)
- ⑩ Stability of Tenure (job security, stable environment, creates team spirit, sense of belongingness)
- ⑪ Scalar Chain (chain of superiors ranging from ultimate authority to the lowest, Grand Plank)
- ⑫ Sub-Ordination of individual interest to general interest (honesty/sincerity, regular to work, reconciliation)
- ⑬ Esprit De Corps (working as a team)
- ⑭ Centralization & De-centralization
 - ↓ decrease role of sub-ordinate
 - ↑ increase role of subordinate
 - [Authority confined, top management retains most of the decision making authority]

- ③ **Unity of Command :-**
- ① One boss
 - ② related to the functioning of personnel's
 - ③ necessary to fix responsibility of each subordinates
 - ④ avoids conflicts, confusion & chaos
 - ⑤ leads to better superior sub-ordinate relationship

- ④ **Unity of Direction :-**
- ① One head, one plan
 - ② related to the functioning of departments, or organization as a whole
 - ③ necessary for sound organization
 - ④ avoids duplication of efforts and wastage of resources
 - ⑤ leads to smooth running of the enterprise

- ② **Authority & Responsibility :-**
- ① both are co-existing
 - ② Must go hand-in-hand
 - ③ Authority :- right of superiors to get exactness from their sub-ordinates
 - Responsibility :- obligation for the performance of the job assigned

- ⑤ **Equity** :- Recognises that each person has different circumstances and allocates the exact resources and opportunities needed to reach an equal outcome.
- ⑥ **Order** :-
- ① principle is concerned with proper & systematic arrangement of things & people.
 - ② Arrangement of things $\Rightarrow$ Material Order
Arrangement of people $\Rightarrow$ Social Order
- ⑧ **Initiative** :-
- ① means eagerness to take actions without being asked to do so.
 - ② management should provide opportunity to its employees to suggest ideas/experiences and new method of work.
 - ③ helps in developing an atmosphere of trust & understanding
- ⑬ **Espirit De' Corps** :-
- ① achieved through unity of command.
 - ② refers to team spirit .i.e, harmony among work groups and mutual understanding among members.
 - ③ inspires workers to work harder.
 - ④ Fayol cautions managers against dividing employees to compete as it might damage the morale of workers.
